What is Primeur GDPR Management and Data Privacy?

Easy and powerful as an
Excel file, interoperable
and automatic as an **ERP**.

Main Key Points

IMPRESSIVE TIME SAVINGS

FROM «DIRTY LIST» TO STRUCTURED INFORMATION

-  Automatic compiling
-  Automatic imports from existing data
-  Automatic discovery of data
-  Automatic translations
in more than 100 languages

Main Key Points

FORGET MISTAKES

No redundancy (normalized information)

Integrity controls

Alert systems (automatic and schedulable)

Each role has his/her own synthetic views

Everything is viewable as a visual map

S>

Main Key Points

SCALABLE

SUITABLE FOR SINGLE COMPANIES AND MULTINATIONAL CORPORATIONS

Multi legal entities centralized approach

Multi language document managing

CONCURRENT AND SEGMENTED COMPILATION IN COMPLEX REALITIES

Cone of visibility

Roles and responsibilities

Main Key Points

COMPLETELY CUSTOMIZABLE

1

We can install a tailor-made solution for customer (we own the source code and we develop in modular approach)

2

Customers could autonomously edit every option, list and parameter

3

Customers can autonomously introduce as many new characteristics as they want for every item

Main Key Points

OPEN TO THE WORLD

- 1 Interoperable with every application
- 2 Modularity → suitable for every contest
- 3 Real multilanguage

Main Key Points

THE MODULES

INSTALLATION AND DEMO READY

- Core
- Record of processione activities
- Data Processor
- Data Breach management
- Multilanguage
- Structured discovery
- Unstructured discovery
- Data Masking
- Data Subjects Rights Management

UNDER DEVELOPMENT

- PIA/DPIA (risk management)
- Data Breach Detection
- Automatic identification of processing activities

Main Key Points

BEYOND GDPR

PRIMEUR DATA PRIVACY CAN BE USED TO:

-  Keep data (not just personal) under control in the company: reserved, industrial properties, segmentation in business areas ...
-  Increase the security (both monitoring and alert and with breach detection)
-  Data masking for protected communication with third parties
-  Discovery in automatic catalog documents

Thank you!
